

Accelerated procedure for customs declaration process

New Primary Inspection Kiosks in Canadian airports

The Canada Border Services Agency (CBSA) is introducing something new at Canada's busiest international airports: primary inspection kiosks. These kiosks are intended to accelerate the customs declaration process upon entry into Canada.

Primary inspection kiosks eliminate paper declaration forms issued by flight attendants. Declarations can now be completed through the CanBorder mobile app or directly at these new kiosks in available airports.

Kiosks are available at the following locations:

- Montreal-Trudeau International Airport – YUL
- Terminal 3, Toronto Pearson International Airport – YYZ
- Vancouver International Airport – YVR
- Ottawa International Airport – YOW
- Edmonton International Airport – YEG
- Halifax Stanfield International Airport – YHZ
- Québec City Jean Lesage International Airport – YQB

For more information, refer to the [CBSA website](https://www.cbsa.gc.ca).
